

TENNIS 2021

Clever colour concepts, with a mixture of performance and fashion - once again in 2021 our tennis collection is ready for Centre Court. Perfect fits and high-performance materials are combined with a modern design language and the latest colour trends.

One new feature is that we have increased the size of the logos in the Performance and Vision lines. In the Club line, this will happen with the new Club Collection in the 2022 season.

The basic colours of black, white and dark blue are identical in all lines. Fashionable, seasonal colours characterise each line, but are chosen such that outfits can also be playfully combined within the Performance, Vision and Club lines.

In this way, we have once again created a consistent collection in 2021, which perfectly reflects the DNA of HEAD Sportswear.

INTENSE MATCHES AND HARD TRAINING SESSIONS DEMAND A LOT FROM TENNIS CLOTHING. THEREFORE ACTIVE CLIMATE MANAGEMENT AND QUICK-DRYING MATERIALS WILL GIVE THE ATHLETE THE BEST SUPPORT DURING PLAY.

FAST DRY

MOISTURE TRANSFER

MXM: MOISTURE TRANSFER MICROFIBRE

M In the 2021 collection, all tech-styles in the Performance, Vision and Club collection have the HEAD Sportswear MXM (Moisture Transfer Microfibre) technology. These high-performing microfibres move sweat to the surface of the material where it is efficiently removed.

This brings a cooling effect and allows the material to dry quickly. MXM is at its most effective when worn directly on the skin, the fibres offer their best drying properties.

TEAM HEAD COLLECTION

Team HEAD is made up of all the professional tennis players and their training staff who are kitted out by HEAD Sportswear. Their outfits are put together from the Performance and Vision lines and are therefore also available for leisure players. Men and Women can take to the courts in selected styles from the Performance line. For warm-up and training sessions they can turn to the joggers, sweaters and shirts from the Vision line. All this goes to make Team HEAD a definite style match winner!

NEW FOR
SUMMER 2021

PERFORMANCE

Sporty yet elegant: the new Performance line conquers the tennis court with the colours blue, white and silver. For women, individual diagonal stripes in mint and orange create additional colour accents. The men can look forward to an extensive diagonal stripe print with colour gradients in turquoise or red. For the first time, polo shirts for women and men are available with either a zip or button placket.

The women's range has a rather looser cut than the Vision line and the Perf T-shirts and polos have slightly longer sleeves. One stylish highlight of the Performance line is a white track-suit for women, comprising a sweatshirt with 3/4 sleeves and wide-leg culottes. Yet again the Performance line proves that it offers couture for the tennis court.

Glowing colours, striking patterns, sporty cuts - the youthful Vision line puts everyone in a good mood on court. Colour highlights such as yellow, turquoise and red for the men. Mint, orange and a muted blue tone for the ladies bring added flair to the fashion game.

Asymmetric stripe prints, sometimes combined with a technical animal print, shirts with big cat prints and lightweight leopard print jackets turn the tennis court into a catwalk. Men score highly in outfits with large-scale colour blocks, multicolour fade-outs and geometric prints. This line is sure to help you win the style battle on court.

VISION

CLUB

The Club concept was introduced in 2019, so is now entering its third round in 2021. The look is made up of sporty cuts, classic designs and five basic colours, which feature in every Club Collection: black, white, red, blue and navy.

This makes it possible to combine styles across seasons and ensures maximum flexibility in creating outfits. For all future collections, the colours will always be adapted to the previous lines in order to reduce waste and ensure compatibility across the years.

FOOTWEAR

HEAD FOOTWEAR TECHNOLOGIES

OrthoLite®

OrthoLite®
With its innovative long-term cushioning, and lightweight, highly breathable foam, the OrthoLite® insole enhances comfort on and off the court. The moisture management helps to keep the foot cool, dry and comfortable. On top of that, the insole is machine-washable.

DeltaStrap
Triangle shaped midfoot straps are integrated into the lacing for best stability and an individual fit.

HEAD Cooling System
Perforations in the outsole, midsole and sockliner ensure great ventilation in the bottom of the shoe. Also includes a breathable upper mesh material that provides optimal cooling.

HEAD Drift Defense
In order to have a complete durable shoe, the upper of a tennis shoe needs to be durable as well, especially around the toe and medial forefoot area. HEAD uses an abrasion resistant rubber or a TPU layer in the Drift Defence technology to protect this area during aggressive toe drags.

HEAD Energy Frame
Inspired by our ski boots, the TPU wings guarantee the best stability when moving sideways. These stability elements have been specifically designed and developed for sports where lateral support is extremely important. This technology is a key element on all our stability products.

HEAD Heelstab 180°
TPU Brace that wraps around the heel for best fit and support.

HEAD Hybrasion+
A special rubber compound developed for tennis shoes. Guarantees the best traction for all court surfaces while still providing excellent durability for players who slide a lot.

HEAD Hybrasion
Non-Marking rubber compound that provides good grip and offers great durability on all surfaces.

HEAD Lateral Control
HEAD includes additional lateral stability on all our top performance shoes to help avoid rolling over during extreme slides.

HEAD lockdown Strap
Midfoot straps integrated into the lacing system keep your foot in place.

HEAD TRI-NRG
HEAD's complete support technology. First, NRG **N**utralizes impact in the heel heal area, then it is **R**igid in the midfoot area for excellent torsional support and finally it **G**enerates energy as you move forward for additional acceleration. Using different materials with different properties and densities in each area of the shoe are key elements in this HEAD footwear technology.

Sock Support System
Fully integrated elastic sock construction for initial comfort and better support.

SuperFabric®
Extremely abrasion resistant and at the same time really flexible upper material.

FOOTWEAR

REVOLT PRO 3.5

The HEAD REVOLT PRO 3.5 is a premium, all-court performance shoe for baseliners, with an optimal combination of comfort and stability. Now with a fresh upper design and new heel construction.

UPPER

Strong mesh with PU molded durability chassis
Internal TPU heel counter
Integrated lacing straps
